The Organizing Committee is pleased to invite you to participate in the XXXIV International Scientific and Technical Conference **"Automation of Discrete Production Engineering 2025" (XXXIV ISTC "ADP 2025")**, which will be held from June 29 to July 2, 2025 in the city of Sozopol.

The International Scientific and Technical Conference "Automation of Discrete Production Engineering" is held annually within the framework of the "Science Days of TU-Sofia".

The conference is organized by the Department of "Automation of Discrete Production Engineering" at the Faculty of Mechanical Engineering of the Technical University of Sofia. The topic of the conference is in the field of mechatronics, automation and robotization of discrete production. Nine main scientific directions are distinguished:

- ✚ Theoretical problems of automation of discrete production engineering
- ✚ Technologies and machines for automated discrete production engineering
- ✚ Automate the flow of parts
- ✚ Industrial robots and robotic complexes
- ✚ Assembly automation
- ✚ Mechatronics
- ✚ Control systems in discrete production engineering
- ✚ Innovation and engineering of automation of discrete production engineering
- ✚ CAD/CAM/CAE systems and virtual engineering

All submitted reports are peer-reviewed. The best reports in English will be submitted for publication in Web of Science. Reports accepted in Web of Science will be included in a separate WoS collection of the 34th International Scientific and Technical Conference "ADP 2025" with ISBN and will be indexed and referenced in the following international databases: - Web of Science, - European Reference Index for the Humanities and the Social Sciences (ERIH PLUS), - EBSCOhost Research Databases.

All other reports are published in the journal "Automation of Discrete Production Engineering", included in the National Reference List of Contemporary Bulgarian Scientific Publications with Scientific Review with ISSN 2682-9584.

The reports are presented during the XXXIV International Conference on the Development of the Environment and the Environment "ADP 2025" in one of the working languages: English, Bulgarian or Russian.
